

## Videoconferencing Program

Marine Turtles around the world are under threat from a variety of human impacts and many species are now endangered. Learn how you can make a difference to the survival of these ancient reptiles, no matter where you live in the world, by taking your students on a virtual excursion to the Reef HQ Aquarium Turtle Hospital.

### **Program Description:**

*Turtle Connections* provides a fun, educational and interactive introduction to the world of Marine Turtles and the conservation of these endangered species. Presented by experienced marine educators, participants go behind the scenes to visit our turtle hospital, meet the patients and learn how they are cared for.

Student interaction with our presenters is encouraged and questions welcomed throughout the 45 minute session.

Supporting materials are available for pre- and/or post-event study.

### **Availability, access, and cost:**

*Turtle Connections* and other VC programmes (see over) are available throughout the term (bookings essential). If you have a good internet connection, then connecting to Reef HQ Aquarium's video conferencing is easy, through a PC, laptop or other similar smart device.

A 45 minute *Turtle Connections* session costs \$100.00 (including GST), and we are happy to invoice your school after the event.

For more information please contact **Reef HQ Education** - 07 4750 0754 [education@gbmpa.gov.au](mailto:education@gbmpa.gov.au)

***Additional video conferencing programs:***

- Threats to the Reef
- Climate change
- Marine Park Management
- Classification
- Marine Debris
- Life cycles

Additional VC programmes take the form of a lecture style presentation, where supporting images and video can be presented through our content sharing capabilities.

**Program content, format and delivery can be tailored through prior negotiation** to suit the age and educational focus of each participating group.

Cost for a 60 minute program is \$155.00 (incl. GST) .

Please contact the education team at Reef HQ Aquarium to discuss your particular interests, as well as for links to additional educational resources.
