

## CLASSIFYING ANIMALS

### *Phylum Annelida*

Annelids are also known as segmented worms. List some animals that belong to the phylum Annelida.

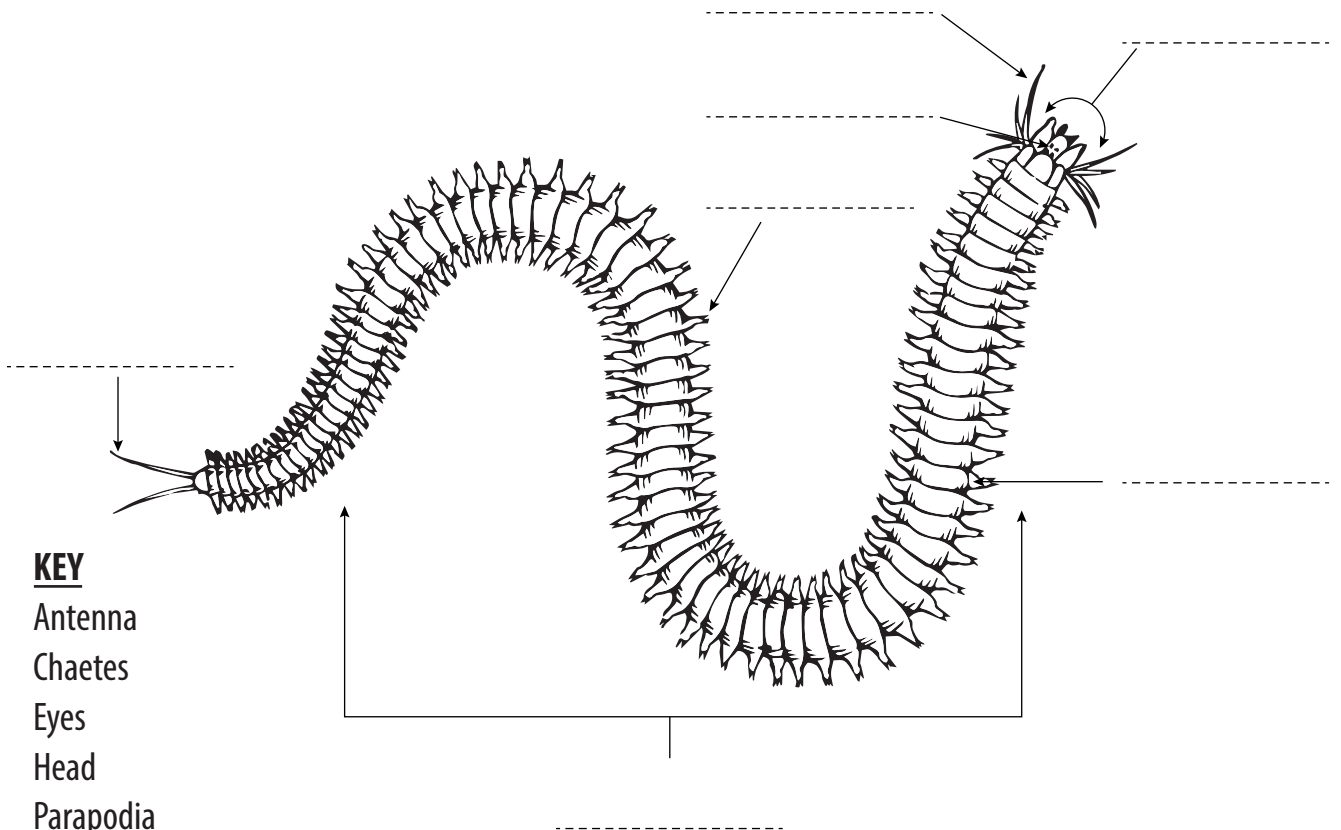

---

---

State what the name 'Polychaete' refers to.

(Poly) \_\_\_\_\_ + (chaete) \_\_\_\_\_ = \_\_\_\_\_

Using the key below, label the features of the polychaete.

**KEY**

- Antenna
- Chaetes
- Eyes
- Head
- Parapodia
- Tail
- Trunk
